### II. Conceptual note

#### **Explanation**

---

The native population of tourist areas, including on the routes concerned can become small and medium entrepreneurs in tourism and will create thematic villages around objects of tourist attraction, thus raising the tourist industry at a high level, and, with it, the standard of living of the population in the region.

## **Potential beneficiaries of the project/target group**

---

### **Groups/entities which will benefit (directly or indirectly) from the results of the project.**

- The population of the region;
- Tourists;
- Tourist Industry from NRD.

### **Final beneficiaries and their estimated number of.**

980000 inhabitants of NRD overall and about 2800 inhabitants near the object of tourist attraction.

### **Project products.**

---

- 1 historical-architectural complex restaurant (8 buildings);
- 1 access road at the dendrological Park repaired;
- 1 fence of the park rehabilitated;
- 2000 Persons informed on the entrepreneurial culture in the tourist sector;
- 3 Trainings for entrepreneurship;
- 2 training courses for all interested in business initiation in the field of tourism;
- 2 public launch events and completion of the project;
- 1500 promotional materials published.

### **Results of the project**

---

1. Increased number of tourist visitors to the tourist area “Țaul”;
2. Increased number of tourist business in the project area;
3. Increased number of new jobs created per region;
4. Regional Gross product increased.

### **Multiple effects**

---

The project can generate new economic activity in tourism and will make the area more attractive for new residents and for investors. Increasing the number of tourists in Țaul will abound and tourist visits to other localities will generate profits from the sale of souvenirs, accommodation, food, transport. Experience of the village Taul can be replicated on other places with potential for development.
